

The *Vanguard* Series Military Side Drum

MDUK are please to present the new *Vanguard* Series of military side drums. *Vanguard* drums are designed to produce the traditional 'British' sound at a price/quality not available anywhere else.

The design of the *Vanguard* Series provides all the features that both youth and adult musicians require along with that tradition "full lug" look, including:

- 6 ply North American Maple shell to provide improved resonance, with 8 cast lugs and rubber lug gaskets.
- 24 strand top snare which is adjustable in both tension and height, with on/off control.
- 20 strand bottom snare with tension adjustment with on/off control.
- Bright chrome hardware
- Two air vents to improve air movement and provide superb 'attack'.
- Mid lug 3mm thick carry hook to provide constant carry position.
- All *Vanguard* drums can be specified with a soft carry case to protect your instrument, which can be further upgraded to a hard carry case, both at very competitive prices.
- Gloss white Mylar batter head.
- Available in both 12" and 10" deep shells.
- Customization service available

See detailed specification overleaf

Available in red, black, white and British military colours, these drums are available from stock in the UK with a range of options to suit all your needs
